2011 EMERGES AS A LANDMARK YEAR FOR GABAY GURO
AS IT YIELDS MORE PROJECTS IN SUPPORT OF TEACHERS NATIONWIDE

Mr. Manny V. Pangilinan, Chairman, PLDT [illegible] Gabay Guro Program

Molding generations of educated Filipino children is central to nation building. So in the year that's passed, Gabay Guro continued its efforts to support teachers who are instrumental in achieving that end. With PLDT-Smart Foundation, Gabay Guro makes good on its goal of enhancing education through reaching out to our country's unsung heroes. It does so through continuous teachers' training, livelihood programs through micro-financing and providing computers and broadband technology to schools as a start.

In 2011, Gabay Guro celebrated the graduation of its first and second batches of scholarship grantees in a ceremonial dinner called [illegible] with no less than Manny V. Pangilinan. As one of the most important affairs Gabay Guro espouses in support of the people who wish to pursue the noble profession. On the same month, it also paid tribute to teachers nationwide with the Grand Gathering for Teachers Event for the annual Teachers' Day celebrations to make them feel how important they really are. Again, just one of the few things Gabay Guro does to give back to those who have tirelessly given of themselves to make our children better people. Gabay Guro's programs have touched more than 12,000 public school teachers to date and will carry on doing the same work through 2012 and beyond.

Ms. Chaye Cabal-Revilla, PLDT Gabay Guro Chairperson

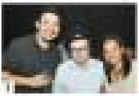
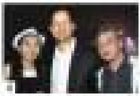
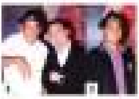
They say real winners continuously reinvent themselves and every decade offers a new clean slate to do so. Heralding change and innovation for the next 10 years, the emergence of "PLDT ALPHA Enterprise" this 2011 leads the new direction. "ALPHA is the product of the PLDT Corporate Business Group's natural evolution into your premier business ICT provider," said PLDT VP and Head of Corporate Business Group and SMART Enterprise Sales and Marketing Head Jovy Hernandez.

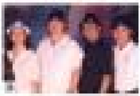
Such a milestone deserves nothing less than an ALPHA-sized celebration. Once again, Alpha-level corporate leaders gathered for the annual PLDT [illegible] night. Year after year, [illegible] clients and partners await this grand party, and this year's celebration set a fresh exciting tone for the years to come. [illegible] Manila 2011 was held at the massive World Trade Center [illegible]. On cue, guests arrived in dashing black and white to celebrate PLDT's "Hollywood Years". They each received matching black and white fedoras at the entrance, giving the whole event an extra touch of timeless elegance. All night long, [illegible] posed and played in front of the [illegible] photo wall, set up like the world-famous view of the hilltop Hollywood sign.

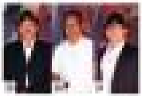
[illegible] dominated both ends of the venue, playing special Hollywood-themed videos showing PLDT's very own business heads to the delight of every spectator. Each film [illegible] showcased PLDT's milestones in progressive decades from the 20s to present day. [illegible]

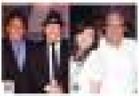


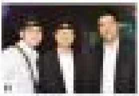


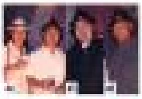


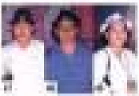


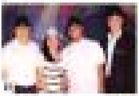












[illegible]

[illegible] AMP [illegible] before [illegible] with classy performances [illegible] music from [illegible].

All night long, the five-star cuisine of Chef Billy King was served with [illegible] finger food recipes. [illegible] Manila 2011 night didn't skimp on the liquid refreshments either, with three bars including a [illegible]-shaped centerpiece dispensing drinks all night.

Thankful ALPHA partners expressed sincere gratitude for their collaboration with PLDT ALPHA Enterprise. "PLDT's solutions have helped a lot in our communications. Now we are able to receive and send emails and [illegible] which of course, means a lot in every kind of business," said a well-respected lawyer.

"Becoming ALPHA Enterprise is really a good step because PLDT's corporate group really needed this branding which shows that they are number 1. PLDT has helped us in bringing our services to the customers. In every way we can really say that 2011 has been a good year for business and we're looking forward to doubling our revenues in the next year," said a top executive from a technology development company.

A promising 2012 awaits PLDT ALPHA Enterprise and the entire Philippine business. By putting "Relationships First," both the premier telco and its respected partners will again rise even higher in achieving true global competitiveness in the coming new decade.

A musicale to inspire

Business CHIC

By Johnny Litton

A specially crafted musicale entitled "[illegible]" was held last month at the [illegible] in honor of retired Supreme Court chief justice **Artemio Panganiban** as he celebrated his 75th birthday. Featuring original music by **Ryan Cayabyab** and directed by **[illegible]**, the musicale traced the life and times of the gifted and brilliant jurist. Performers include the Manila Symphony Orchestra, **Cris Villonco**, the Supreme Court Choir, [illegible] Choir and the Panganiban grandchildren. Among the prominent guests were Vice President **Jejomar Binay** (on behalf of His Excellency Benigno Aquino), former presidents **Fidel V. Ramos** and **Joseph Estrada**. From the Archdiocese of Manila **Luis Antonio Tagle** [illegible] **Miguel Panganiban Sandejas** [illegible] the former chief justice introduced the Foundation for Liberty and Prosperity which will focus on governance, education and social welfare. The literary Lopez

PENMAN

[illegible]

The literary Salvador P. Lopez was also a man of seeming contradictions. His famous run-ins with Villa tended to paint them as irreconcilable antagonists, and yet he, at one point, had high praise for Villa's artistry. According to Villa himself, it was Villa's refusal to consciously mix art and politics that Lopez couldn't take.

are significantly higher than in the Philippines.

As the Association moves past the 50-year mark, the local paint industry has constantly grown. And through sheer hard work, a lot of R&D efforts and taking the time to develop products that cater to clients' needs and budgets, Filipino companies can succeed even in an era of globalization.

And as PAPM looks to prepare for the next 50 years, it will have to keep up with global advancements in the paint industry. To make that happen, PAPM continues to answer the challenging, the future of local paint chemistry with paint technology courses and other technical training programs. A huge step in this regard is the publication of PAPM's first book, the Paint Technology Handbook, edited by Technical Committee Head Jerry [illegible] which is slated to be released in March. PAPM is also looking to explore potential [illegible] for partnership projects with the Department of Science and Technology through Secretary Mario Montejo to come up with new developments that will be beneficial for the society and the environment.
